

## COMPANY PROGRAM

The Company Program offers choreography in multiple genres such as contemporary, modern, and jazz in addition to performance opportunities for selected students. Students audition for our company program, and more information about commitment is provided upon acceptance into the program.

Students will further their technique and build strength. Company creates time and space for students to expand their love for the art of dance and develop their artistic voice as they learn phrases and choreography. Students are given tools to look deep into themselves to discover who they are and their passion for dance. This program offers more time for stretching, jumps, turns, progressions, and center technique work. Those selected will perform multiple times throughout the dance season at various competitions. For select dance seasons, we provide the opportunity for students to perform in a winter performance.

## TEEN/ADULT PROGRAM

Dance Revelation offers teen/adult classes for ages 13+ including hip hop, modern, tap, and conditioning. Some programs are year long and others are shorter sessions. Students in these programs experience fun, energetic choreography and basic technique, steps, and combos.

## SCHOOL PHILOSOPHY

*Dance Revelation (DR) seeks to place each student in the level that is best for him or her. We offer multiple programs to meet the needs of all of our students. Dance Revelation students are trained with excellence in proper technique and are given opportunities to build good character.*

*Starting at age 3 we offer an Entry Level Program. Students advance and excel through that program to our Ballet Conservatory. Finally, we offer a Company Program, which offers selected students the opportunity to perform multiple times throughout the season.*

*As students progress at DR they may be invited to be in our Student Leadership Program. This program trains and equips each individual to be the best leader he or she can be and produces responsible, organized, giving, and nurturing people.*

*We truly want our families to be on board with our philosophy and continue dancing, no matter where their journey takes them. We hope you have found your home at Dance Revelation.*

## ENTRY LEVEL PROGRAM

*The Entry Level Program, for ages 3–7, features Level 1 Ballet/ Tap and Level 1 Hip Hop.*

*Students will learn the fundamentals of ballet, tap, and hip hop, with a strong emphasis on child development. Each month features learning goals and objectives focused on your child's growth. We focus on basic technique, manners for dancers, rhythms, patterns, body awareness, stage presence, and confidence. This program prepares each individual beyond dance. Students advance from this program into the Ballet Conservatory of Dance Revelation.*

*Students 7+ (or younger, by invitation) attend a program placement to determine the appropriate program and level for them. Each student is evaluated individually and placed accordingly. Placements are held as part of our summer program, or as part of our regular fall program during set days/times.*

## BALLET CONSERVATORY OF DANCE REVELATION PROGRAM

*The Ballet Conservatory of Dance Revelation (BCDR) offers ballet, tap, jazz, hip hop, modern, and contemporary for ages 7–18.*

*Students create goals for themselves, and our staff guides them to excel in an environment that includes excellence and commitment. We believe that having a strong foundation in ballet allows students to excel in other genres of dance. We also believe that taking additional classes in genres like jazz, hip hop, contemporary, and modern fosters responsibility, dedication, and hard work in our students. Our BCDR program allows staff to work with students to focus on the areas they are excelling in, partnering with them to see the maximum growth possible. This program begins with A level and advances students through B, C, D, E, and F levels. Our BCDR alumni have garnered skills that have allowed them to have successful careers in dance performance and education.*
